Tried Millinery and Sewing and Was a Servant-She Had Notice to Leave. Mrs. Mary W. Earle, who at one time was wealthy, attempted to kill herself yesterday porning by inhaling illuminating gas at 4187 Park avenue, where she had been employed as a servant in the family of J. M. Hannan. She was unconscious when she was found and removed to the Fordham Hospital, but the doc-

tom succeeded in reviving her and she will

Hannan has a hardware store on the ground floor of the building, and lives with his daughter above the store. When he arose early yeaterday morning he found that his servant had not been seen, and detecting the odor of gas coming from her room he called a policeman, who forced open the door. Mrs. Earle was stretched out on the floor with a pillow beneath her head and one end of a rubber tube. extending to the gas, in her mouth. The best clothing she had was laid out in a chair and on them a note which read: "Please put these clothes on me." In an envelope on the table was the following statement, written in pencil:

"I, Mary W. Earle, in sound mind, am driven to end my life in this greateity for want of a home, want of friends and money. I was fiftyfive years of age July 27, 1880. I have tried to do my duty, but now at this season of the year when help is hardly wanted. I have been given notice Sunday evening that I must be out to-morrow morning. I have no place on earth to go; must seek a place elsewhere; where, who can tell? My native place is Cooperstown. Oteogo county, N. Y. I have a grave in Lakewood Cemetery. If some kind person will send me there. However, in death, as in life, all friends fail if help is needed. I must be laid away like any pauper in Potter's Field. God help the poor. I hope my sins will be for-

In a letter addressed to Mr. Hannan, Mrs. Earle asked that William C. Ely of 45 Falls street, Niagara Falls, might be notified of her death. Several other letters which were found among Mrs. Earle's effects, showed that she had been in the millinery business, and had also tried to earn a living as a scamatress.

Hannan said last night that Mrs. Earle was introduced into his household three months ago by a friend who said she wanted employment as a servant, as she was in need of widow of Mortimer Wilburn Earle, a Wall street broker who lost \$30,000 in the Black Friday panie in 1873. In 1888) Earle was thrown from his carriage, and died soon afterward in

Hannan refused to say why he had discharged Mrs. Earle, but asserted that he had sufficient cause for doing so.

FALL RIVER MILLS IN DEMAND. Still Another Offer on the Way-Nelson G. Green in the Town.

FALL RIVER, Mass., Aug. 28.-Nelson G. Green, representative of the second syndicate that proposes to buy local cotton mills, was in the city to-day. He talked to representatives of the national banks and then met the treasurers and directors of the mills. To all he said he represented the United Cotton Company, capitalized at \$150,000,000, to control the cotton manufacturing business of the country. He assured his hearers that the company did not intend to take any local management, and that if a deal were made local owners would have a chance to get into the new company. He asked for a conference in New York, where he would meet a committee of mill men and bankers from this city and introduce them to the capitalists he represents. Then prices would be stated and the plan given in detail. The state of affairs is rendered more uncertain by the announcement that a third offer is coming. this time from the syndicate of which William H. Wood, of the American Woolen Company, is promotor. Until this offer comes, and it may be three days or three weeks getting here, the mill men will discuss the others.

HARDEN BACK IN KENIUCKT.

Blackburn Thinks He Will Make Speeches for Goebel. FRANKFORT, Ky., Aug. 28.-Gen. Parker Watt

Harden returned to-day from a trip in the Northern States. This is his first appearance in the State since the Louisville Convention nominated Goebel. It is asserted the unseating of Hardin delegates gave rise the movement for the boiling emocratic Convention which nominatboiling ed ex-Gov. Brown. Gen. Hardin has made no public expression as yet, but ex-Senator Blackburn says he expects Hardin to appear on the stump within the next few weeks in support of the Gosbel ticket. Gen. Hardin is reported to have told his friends that he was not sore in the least over his defeat,

Not Satisfied With Kenting's Leadership.

A number of Democrats in the Twentieth Assembly District, who are dissatisfied with the leadership of James P. Keating, Commissioner of Highways, met last night at Halvoon Hall, 537 Third avenue, and formed an association to fight him at the primaries. An organization fully officered was formed and it was voted to form associations in every election district. Captains were selected for each election district except the Ninth, and resolutions were adopted endorsing the fight being made by John C. Sheehan in the Ninth As

Jumped to His Death in Jail.

HAVERSTRAW, N. Y., Aug. 28,-Daniel Ludwig, an aged prisoner, who had been committed to the county jall at New City, ended hi twenty days' sentence by committing suicide resterday. Ludwig when confined was in cell on the second tier from the floor. Yesterday while out for exercise on the gallery, which runs around the jail in front of the cells. Ludwig sprang over the rail which surrounds the gallery and plunged head foremost to the iron floor twenty feet below. His neck was broken by the fall.

Clergyman Declines a Lieutenautcy.

FORT HUNTER, N. Y., Aug. 28.-The Rev. Edmond P. Easterbrook, a member of the Troy Methodist Conference now stationed at Minaville, has declined a lieutenancy in the regular army, preferring an appointment as chapiain, and has been notified that there will be no chaplains in the regiments being formed. Mr. Easterbrook was chaplain of the 2d and 203d New York regiments, formed for service in the Spanish-American War.

Fireman Scalded on the Maryland.

John Flynn, a fireman on the New York, New Haven and Hartford transfer boat Maryland. while cleaning the boiler last night while the boat was near the foot of East Twenty-sixth atreet, was severely scalded about the chest and arms by the blowing out of a joint in a hot water pipe. He was put in a small boat and taken to Bellevue Hospital.

Killed His Mother for a Burglar.

OTTAWA, O., Aug. 28. Carlton Simone, a young farmer living near North Creek, in this county, accidently shot and instantly killed his mother this morning. Mrs. Simone got up shortly after 3 o'clock and her son thinking burglars were about fired his platel through a door, shooting her through the heart.

Petitions in Bankruptey.

A petition in involuntary bankruptcy was filed yesterday against Julius Riess, manu facturer of cloaks at 54 and 56 West Third

Pulaski Terwilliger, former proprietor of a livery stable at 124 and 126 East 121st street lifed a petition in bankingtey restricts a street, filled a petition in bankingtey restricts a showing liabilities of \$16,039 and no assets.

John Temple Grayson, mining engineer, formerly of 30 Broad street, now living at Baker City, Ore., filed a petition in bankruptcy restarday showing liabilities of \$84,033 and no assets.

PINANCIAL AND COMMERCIAL.

The general trend of prices to-day was again toward a higher level. There were few losses of account, and there were numerous gains of importance. The most important event of the day was the report of the Chicago, Milwankee and St. Paul Railway for July, which showed gross earnings of \$3,384,478, an increase of \$849,283 over July last year, and net earnings of \$1,140,058, an increase of \$257,537. The increase in net earnings was nearly 30 per cent. It is noteworthy also that the increase is equal to nearly one-fifth the entire increase in netearnings in the fiscal year ended June 30 over the preceding year. A remarkable exhibit had previously been published inithe increase of \$498,400, or 106 per cent in the net earnings of the Atchison. Topeka and Santa Fé system for July. The Erle Bailroad, too. had shown an increase of \$207,000, or 30 per cent for the same month. There are many large systems which have yet to make their reports for July, and it is to be expected that there will be more showings as striking as those already made.

There were no developments in the day that were of an unfavorable nature. Money on call continued in fairly liberal supply at the recently prevailing rates. The dealings on the Stock Exchange were not increased in volume, but they were remarkably well distributed. There were transactions in 173 issues, or within three of the largest number on record. The tobacco stocks were leaders in speculation. For American Tobacco common and Conti-nental Tobacco preferred substantial net gains were recorded. There was a large business in Continental common, but its gain in price was only fractional. There was nothing at all doing in American preferred. The report was repeated of a prospective increase in the divi-dend on American common. There was a good advance in Sugar Refining despite the talk the recent cut in the price of refined sugars indicated the resumption of war by the Sugar Trust, so-called upon the independent concerns. The declaration of the first quarterly dividend on Republic Iron and Steel preferred stock was followed by a sharp rise in common, The other iron and steel stocks, with the exception of Tennessee Coal and Iron and Colo-rado Fuel and Iron, were bettered in price. Brooklyn Rapid Transit was steady and closed unchanged. There was a rally in Metropolitan Street Railway on the covering of shorts. There was profit-taking in some of the leading railroad stocks, and these stocks sustained small declines.

Cotton was depressed by light rains in eastern Texas, heavy and general rains in Mississippi, Aisbama, Arkansas, Louisma, Florida, Georgia and the Carolinus and a reaction in Liverpool after a higher opening. Furthermore, Liverpool and the South sold here early in the day and so did local and Wall street operators while there was more or less bearish pressure. But the rainfall in Texas was light and did not cover any great cotton territory, and this fact, together with further reports of serious damage to the crop, checked the downwar i movement of prices. Later on most of the loss was recovered. The Signal Service forecast for Texas indicated only a possibility of showers and thunderatorus in the extreme eastern portion. The South bought and local and out-of-town operators beight for both accounts. Fears of a bullish Government report to morrow induced some buying.

BREVERAM. Tex. Aug. 22.—"Plant in this section.

tern portion. The South bought and local and outof-town perators bought for both accounts. Fears
of a bullish Government report to morrow induced
some buying.

BRESHAM. Tex. Aug. 22.—"Plant in this section
has failed very fast the past two weeks, owing to hot
weather. Damage is very serious and too late now
for rain to do any zood, or make a top crop, and
from all accounts, the same state of affairs exists in
the State at large, therefore I expect a materially
decreased yield in Texas." Dathas, Tex. Aug. 23.—
"Still dry, with hot winds. No signs of rain."
BURMINGHAM. Ala. Aug. 23.—"Conditions with in
very unfavorable for some days past. We are daily
receiving reports of damage. Unless conditions change for the better immediately, don't think
the outturn will equal that of last year." Elyatha.
Ala. Aug. 23.—"We have been favored for past 30
days with favorable showers, which benefitted top
crop and late cotton. Yield promises to exceed
last year, but we did not make an average last year.
If favorable weather continues a few weeks longer
we are certain of an average outturn."
ATHANYA,
Ga. Aug. 24.—"No change for the letter in roconditions; have had no rain within fifty miles of
Atlanta. There was a good rain from Athenya to
Girifon, a section that suffered most from drought,
but think it came too late to add anythire to the
crop; in fact a generally 5 points lower, chosing

MINING NEWS.

Graham. Garrett & Co. received a despatch from Medical Lake, Wash., yesterday to the effect that James B. Smith of New Haven. Conn., has concluded his inspection of the Georgie Reed properties and is negotiating for the purchase of a large interest therein.

There is still great excitement at Sumpter. Orc., overthe new discoveries in the Golconda. Another rich pocket was found in the drift several days ago, and \$60,000 worth of ore was sacked within an hour. This makes \$190,000 from the same pocket in ten days.

Cripple Creek reports that fifty-six tons of ore from the south end of the Republic, which is owned by the Mary McKinney Company, netted \$5.401 after royalties, freight and smelter charges had been paid. The Danteon Bull Hill is shipping twenty tons a day. On the south end of the lode of the Clements lease the ore body has been opened to the 225-foot level, a distance of 150 feet. The pay portion is from five to nine feet wide and assays from \$5.0 to \$40 a ton. It is reported from Crystal, Col., that ex-Senator Warner Miller and Henry P. Harbour of Denver have bought the Black Queen properties and will equip them at once with modern machinery for operations on a big scalo. The property consists of four claims, which are fairly developed, From one of the claims a shipment was made last week that ran from 20 to 35 per cent. copper, with some values in gold and sliver.

C. E. Forter, secretary of the Fairmount Zinc Co., of Fairmount, Ind., is investigating the zinc ore supplies of the Leadville district. Should his report be favorable, mine owners will be approached with a project for the establishment of a zinc smeller. A. J. Davis, ascent of Jacobset & Co., of New York, has contracted with the manager of the Louisville for the zinc ore supplies of the Jeadville district. Should his report be favorable, mine owners will be approached with a project for the establishment of a zinc smeller. A. J. Davis, ascent of Jacobset & Co., of New York to buy machinery is being installed by the Santa Fé Gold and Copper

it is rich and continuous. Samples assay as high as \$600 to the ton.

REPUBLIC IRON'S DIVIDEND.

Net Earnings of \$5,000,000 Reported at

The first quarterly meeting of the directors

of the Republic Iron and Steel Company of Chicago was held yesterday at 10 Wall street, and a dividend of 1's percent, on the preferre stock was declared. The dividend is myable on Oct. 1. There is \$20,500,000 in preferred stock out and \$26,500,000 in common stock out. It will take \$1,500,000 to pay the dividend on the former. Among the officers and directors of the company present were: President, R. S. Warner: First Vice-President, George D. Wick: Second Vice-President Samuel Thomas: Third Vice-President. James C. Corns; Fourth Vice-President, George M. Bard; Secretary, Silas J. Liew ellyn; Treasurer, John F. Taylor; General Counsel, Harry S. Rubens; Executive Committee, the officers above and Myron C. Wick, Alexis W. Thompson, G. Watson French and T. A. Meysenburg; Directors, the officers and Executive Committee as above and August Belmont, Grant B. Schley, J. G. Caldwell, George R. Sheldon, L. E. Cochran, H. W. Hassinger, P. L. Kimberley and George M.

Clark. Speaking of the meeting yesterday afternoon one of the directors said: "Rumors have been current for some time that the company would close a number of deals, by which its scope and holdings would be increased at the quarterly meeting to-day, but you can say that the matter of acquiring additional properties or taking in other companies was not even discussed. The company has all the property it wants and is not thinking of concerning itself with the business of other companies at this time. The state of this business and the contracts on hand indicate that the company's net earning for this year will be at least \$5,-The payment of \$1,500,000 in dividends on the

preferred stock on October 1, and the payment of the same amount in quarterly dividends on the preferred stock again on January 1, will leave, if the net earnings reach the expected \$5,-000,000, \$2,000,000 or 8 per cent. applicable to the common stock. The company has no bonds. The Republic Iron and Steel Company was organized in this city on May 11 of this year. is capitalized at \$55,000,000, which includes \$25,000,000 of 7 per cent cumulative preferred tock and \$30,000,000 of common stock. All of the stock however, is not out. The company started with a cash working capital of \$8,500,-000 and with no indebtedness or fixed charges There are thirty-six concerns in the consolidation, thirty of which are rolling mills and the rest mining companies principally.

Drawing Money to Move the Cotton Crop. The Southwest began in earnest yesterday to withdraw from the Treasury silver dollars with which to move the cotton crop to market. Local banks deposited in the Sub-Treasury here, for the account of correspondents in Texas and other places, \$50,000 to be exchanged for silver. The silver, it is prosumed, will be shipped from the mint at New Orleans.

CAPITAL - - - - \$5,000,000.

Divided into 500,000 shares, par value \$10 per share, full paid and non-assessable.

60,000 SHARES are now offered for public subscription at \$3.00 PER SHARE.

The issue of 20,000 shares lately offered was largely over-subscribed, and on that account we were obliged to reduce the amounts allotted on the

larger subscriptions.

The present issue is offered for the purpose of more rapidly prosecuting the company's business in the production of Liquid Air and the construction of its automobiles and other liquid air machinery. The company has been renting and has now purchased a 5-story brick factory 50x200 in Cambridge, Mass., which has already been equipped with a 100 H. P. engine, two 50 H. P. boilers, pumps, shafting, belsing, water tanks, &c., and its operations are progressing very satisfacturily. It is expected within a few weeks to have automobile wagons ready for delivery on the advance orders, which are already sufficient to assure large profits from the beginning. The money secured from the recent issue of stock has established it as an active business cor-poration, and the success of its plans is already assured.

The exclusive control of the inventions of George Code, Hans Knudsen and Milton Chase, for the econemical production of signal air and the practical application of liquid air as power, give this company an absolute monopoly of the best methods of using liquid sir; and it will protect its rights in and under these inventions and patents to the fullest extent.

Its process of manufacturing liquid air is entirely different from any heretofore devised, enabling it to not only liquely all the air compressed instead of 28 per cent as is the case with other methods, but to save and utilize about 70 per cent of the compressed air force developed during the process of liquety-ing. The cost of production is thus reduced to a far less figure than by any other mathod, and the com-

The Liquid Air Power and Antomobile Co. has the advantage in its personnel of a combination of both acceptific knowledge and mechanical genius, which, werking together, have produced results that have never before been attained because one or the other of these elements was lacking, It required BOTH the scientific knowledge and the mechanical genius to make Equid air of commercial value. It is this combina-tion which has made it possible to gain the full benefit derivable from the production of liquid air. the expansive force of the compressed air being used, before liquifying, through a motor which gives us, as stated above, over 70 per cent. of the The proceeds from the sale of the 50,000 shares

above offered will be used entirely for the purposes stated, more rapid advancement of the company's operations. Only 60,000 shares will be sold at \$3.00 the former issue, it is believed that an early application will be found advisable to secure stock at this price. Make all checks payable to the order of THOMAS SEWALL, Treasurer. This company will make more money for its stock-holders than any other investment ever offered,

either mining, commercial or inventive, and ALL THE PROFITS from its undertakings WILL BU PARTICIPATED IN BY ALL ITS STOCKHOLDERS ALIKE Full information may be secured on application to

the company at its executive offices, 186 Devenshire st., Boston, Mass., where full size working models Send for new prospectus, giving filustrated de-
